## SAFE-T-THERM<sup>®</sup> GRAS

### Applications and Certifications

SAFE-T-THERM<sup>®</sup> GRAS is a Heat Transfer Fluid used in Closed Primary and Secondary Loop HVAC-R Systems. SAFE-T-THERM<sup>®</sup> GRAS has been formulated with ingredients which are Generally Recognized As Safe (GRAS) by the FDA.

Components in our formulation conform to the listed requirements:

21CFR184.1666	21CFR74.101 <i>(as applicable)</i>
21CFR182.6285	21CFR74.340 <i>(as applicable)</i>
	21CFR74.705 <i>(as applicable)</i>
	21CFR74.706 <i>(as applicable)</i>

The independent, non-governmental body currently recognized to evaluate and certify heat transfer fluids is NSF International, under the auspices of the Nonfood Compound Product Registration. SAFE-T-THERM<sup>®</sup> GRAS is certified for use as a heat transfer fluid where there is a possibility of incidental food contact (HT-1). The certificate can be independently verified by visiting the NSF International website and navigating to the White Book<sup>™</sup> - Nonfood Compounds Listing Directory.
