Houghton Chemical Corporation

Pah | nol® Gold Antifreeze

Section 1 - Identification							
	Houghton Chemical Corporation						
Manufacturer Address	52 Cambridge Street, Allston, MA 02134						
	1-617-254-1010 or 1-800-777-2466)					
Emergency Telephone	CHEMTREC: 1-800-424-9300						
Chemical Name & Synonyms	Antifreeze/Inhibited Ethylene Glycol						
Chemical Family	Ethylene Glycol Mixture						
Recommended Use	Antifreeze Fluid						
Restrictions on Use Dilution to 50% is generally recommended: dilute to meet local condition.							
	Section 2 – Hazard(s) Identification						
	Acute Toxicity, Oral: Category 4						
	Skin Corrosion / Irritation: Category	y 2					
Hazard Classification	Toxic to Reproduction: Category 2						
	Specific Target Organ Toxicity (Sin						
	Specific Target Organ Toxicity (Rep	peated Exposure): Catego	ory 2				
Signal Word	Danger						
	Harmful If Swallowed. Causes skir						
Hazard Statement	unborn child . Causes damage to o						
Dieta succes December 2	May cause damage to kidneys thro		exposure if swallowed.				
Pictogram Description	Health Hazard & Exclamation Point						
Precautionary Statement	Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash hands and any other contaminated skin after handling. Do not eat, drink or smoke when using this product. Wear eye protection (splash goggles, full face shield), protective gloves and protective clothing (chemically impervious). Do not breathe fumes, vapors, mist, or spray. Response: If swallowed: Call a poison center or doctor if you feel unwell. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash it before reuse. If exposed or concerned: Call a poison center. Get medical advice. Get medical attention if you feel unwell. Storage: Store locked up. Disposal: Contact local sewer, municipal, state and/or federal agencies to determine appropriate disposal options for the product. Dispose of this container with a registered reconditioner or as otherwise appropriate.						
Any other Hazard not otherwise classified	Not Applicable						
	3 – Composition and Inform	ation on Ingredients					
Chemical Name	Common name and synonyms		% by weight				
Ethylene Glycol	Monoethylene Glycol	107-21-1	92%				
Diethylene Glycol	N/A	111-46-6	0-5%				
Water	N/A	7732-18-5	4%				
Inhibitors & Dye	N/A	Proprietary	4%				
	Section 4 – First aid Me						
	Symptoms of Exposure						
Acute Irritation of affected area with symptoms of reddening, itching, swelling, burning, possible permanent damage, nausea, vomiting, weakness, and death							

Delayed	Irritation of affected area with symptoms of reddening, itching, swelling, burning, possible permanent damage, nausea, vomiting, weakness, abdominal pain, muscle tenderness, repiratory failure, severe metabolic acidosis, hypocalcemictetany and death				
Inhalation	Vapors and mists cause respiratory irritation and may be harmful if inhaled.				
Skin	Irritation may result. May be harmful if absorbed through skin.				
Eye Contact	Irritation may cause transitory stinging and tearing.				
Ingestion	Toxic: may be harmful or fatal if swallowed.				
ingestion	Toxic: may be namina		First Aid Instructions		
	Domesto fresh eir A				
Inhalation	Remove to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. Seek medical attention.				
Skin	Wash skin with soap and water for at least 20 minutes. Remove any contaminated clothing. Seek medical attention immediately if symptoms or irritation develops.				
Eye Contact					
Ingestion	DO NOT induce vomiting, seek medical attention immediately. Do not give anything by mouth to an unconscious person. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. Vomiting may occur spontaneously. If vomiting occurs and the victim is conscious, give water to victim to further dilute the chemical.				
Other			ety data sheet to the doctor in attendance.		
Julei					
	Se		5 - Fire Fighting Measures		
Suitable Extinguis	shing Material		, water fog, water spray, alcohol-resistant foam, dry chemical, sand, bon dioxide.		
Unsuitable Exting	uishing Material	No Da	ta Available		
Hazards from Cor			e may contain the original material in addition to but not limited to: n Monoxide, Carbon Dioxide.		
Special Protective	Equipment for		self-contained breathing apparatus and protective suit. Evacuate		
Firefighters			nel to safe areas and keep upwind of fire.		
J	Section		Accidental Release Measures		
	Section	JII 0 —			
Use of personal p	recautions		Ventilate area of leak or spill. Remove all sources of ignition. Wear		
			appropriate personal protective equipment.		
			Usage of safety glasses or googles is recommended. Chemical		
	nent to prevent the		resistant gloves, chemical resistant apron, boots, and full suit will be necessary depending on the extent of clean up task. If ventilation does		
contamination of s	skin, eyes, and clothing.		not control airborne concentration then respiratory protection equipment that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2		
			requirements should be used.		
Methods and materials used for containment		ent	Collect liquid in an appropriate container or absorb with inert material and place in chemical waste container.		
Cleanup procedures			Do not flush to sewer. Comply with all federal, state, and local		
		4.	regulations.		
	S	ection	7 – Handling and Storage		
Precautions for safe handling			Protect container from physical damage. Wear appropriate personal protection equipment. Do not expose containers to open flame, excessive heat, or direct sunlight. Use local exhaust over processing area. Do not eat, drink or smoke around products.		
Recommendations on the conditions for safe			Store in a cool, dry and ventilated area away from sources of heat, moisture and incompatible materials. Observe all warnings and		
storage, Storage/handling incompatibilities.			precautions listed for the product. Keep container closed to prevent contamination.		
Section 8 – Exposure Controls/Personal Protection					
OSHA Permissible Exposure Limits (PELs) Not Applicable					
American Confere	ence of Governmental				
Values	sts (ACGIH) Threshold L	-IIIIIT	ACGIH TLV: 100 mg/m3		
Other Exposure L	imits		OSHA - Table Z-1 Limits for air contaminants - 1910.1000: 50 ppm 125 mg/m3 .		
Engineering Control			Use mechanical (general) ventilation to control airborne levels below exposure guidelines.		
Individual Protection Measures We			Wear protective safety glasses or goggles, gloves, apron, vapor respirator.
