Houghton Chemical Corporation

Safety Data Sheet

Pah|nol® Universal (Pah|nol® U-900) Antifreeze

Section 1 - Identification							
	Houghton Chemical Corporation						
Manufacturer Address	52 Cambridge Street, Allston, MA 03	2134					
Emergency Telephone	1-617-254-1010 or 1-800-777-2466 CHEMTREC: 1-800-424-9300						
Chemical Name & Synonyms	Antifreeze/Inhibited Ethylene Glycol						
Chemical Family	Ethylene Glycol Mixture						
Recommended Use	Antifreeze Fluid						
Restrictions on Use	Dilution to 50% is generally recommo	ended: dilute to meet local o	condition.				
	Section 2 – Hazard(s) Iden						
	Acute Toxicity, Oral, Category 4						
	Skin Corrosion / Irritation, Category 2	2					
	Serious Eye Damage / Eye Irritation,	Category 2A					
Hazard Classification	Sensitization – Skin, Category 1						
	Toxic to Reproduction, Category 2						
	Specific Target Organ Toxicity (Single						
	Specific Target Organ Toxicity (Repe	eated Exposure), Category	2				
Signal Word	Danger						
	Harmful if swallowed. Causes skin in						
Hazard Statement	cause an allergic skin reaction. Susp						
	Caused damage to the central nervo						
Pictogram Description	cause damage to kidneys through prolonged or repeated exposure if swallowed. Health Hazard, Exclamation Point						
Fictogram Description							
Precautionary Statement	Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash hands and any other contaminated skin after handling. Do not eat, drink or smoke when using this product. Wear eye protection (splash goggles or full face shield), protective gloves and protective clothing (chemically impervious). Do not breathe mist or spray. Contaminated work clothing must not be allowed out of the workplace. Response: If swallowed: Call a poison control center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse eyes cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. If exposed or concerned: Get medical attention. If exposed or concerned: Get medical advice. Get medical attention if you feel unwell. Storage: Store locked up. Disposal: Contact local sewer, municipal, state and/or federal agencies to determine appropriate disposal options for the product. Dispose of this container with a registered						
Any other Hazard not otherwise	reconditioner or as otherwise appropriate.						
classified Not Applicable							
Section 3 – Composition and Information on Ingredients							
Chemical Name Common name and synonyms CAS # % by weight							
Ethylene Glycol	Monoethylene Glycol	107-21-1	95%				
Water	N/A	7732-18-5	2.5%				
Inhibitors & Dye	N/A	Proprietary	2.5%				

		Sectio	n 4 – First aid Measures					
	Symptoms of Exposure							
Aguto	Irritation of affected area with symptoms of reddening, itching, swelling, burning, possible permanent							
Acute	damage, nausea, vomiting, weakness, and death							
	Irritation of affected area with symptoms of reddening, itching, swelling, burning, possible permanent							
Delayed			akness, abdominal pain, muscle tenderness, repiratory failure, severe					
	metabolic acidosis, hypocalcemictetany and death							
Inhalation			atory irritation and may be harmful if inhaled.					
Skin			armful if absorbed through skin.					
Eye Contact	Irritation may cause tra							
Ingestion	Toxic: may be harmful							
			First Aid Instructions					
Inhalation			er oxygen if breathing is difficult. Give artificial respiration if victim is not					
minalation	breathing. Seek medica							
Skin			r for at least 20 minutes. Remove any contaminated clothing. Seek					
			if symptoms or irritation develops.					
Eye Contact			minutes. Seek medical attention if irritation develops or persists.					
			k medical attention immediately. If swallowed give 2 to 3 glasses of					
			d alert. Do not give anything by mouth to an unconscious person. To					
Ingestion			d product, lay victim on side with head lower than waist. Vomiting may					
	dilute the chemical.	vomitir	ng occurs and the victim is conscious, give water to victim to further

	Se		5 - Fire Fighting Measures					
Suitable Extinguis	hing Material		, water fog, water spray, alcohol-resistant foam, dry chemical, sand, bon dioxide.					
Unsuitable Exting	uishing Material		ta Available					
	<u> </u>		e may contain the original material in addition to but not limited to:					
Hazards from Con	nbustion		n Monoxide, Carbon Dioxide.					
Special Protective	Equipment for		self-contained breathing apparatus and protective suit. Evacuate					
Firefighters	_ qspo		inel to safe areas and keep upwind of fire.					
.	Section		Accidental Release Measures					
			Ventilate area of leak or spill. Remove all sources of ignition. Wear					
Use of personal p	recautions		appropriate personal protective equipment.					
			Usage of safety glasses or googles is recommended. Chemical					
			resistant gloves, chemical resistant apron, boots, and full suit will be					
Protective equipm	ent to prevent the		necessary depending on the extent of clean up task. If ventilation does					
	skin, eyes, and clothing.		not control airborne concentration then respiratory protection					
	, , , , , , , , , , , , , , , , , , ,		equipment that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2					
			requirements should be used.					
Methods and materials used for containment			Collect liquid in an appropriate container or absorb with inert material					
Methods and mate	enais used for containme	ent	and place in chemical waste container.					
01			Do not flush to sewer. Comply with all federal, state, and local					
Cleanup procedur	es		regulations.					
Section 7 – Handling and Storage								
	Protect container from physical damage. Wear appropriate personal							
Precautions for safe handling			protection equipment. Do not expose containers to open flame,					
e e			excessive heat, or direct sunlight. Use local exhaust over processing					
	area. Do not eat, drink or smoke around products.							
			Store in a cool, dry and well ventilated area away from sources of heat,					
storage, Storage/handling incompatibilities. pre			moisture and incompatible materials. Observe all warnings and					
			precautions listed for the product. Keep container closed to prevent					
			contamination.					
Section 8 – Exposure Controls/Personal Protection								
OSHA Permissible	e Exposure Limits (PELs)	Not Applicable					

	Conference of Governmental lygienists (ACGIH) Threshold Limit			ACGIH TL	ACGIH TLV: 100 mg/m3					
Other Exposure Limits			OSHA - Table Z-1 Limits for air contaminants - 1910.1000: 50 ppm 125 mg/m3 .							
Engineering Control			Use mech	Use mechanical (general) ventilation to control airborne levels below exposure guidelines.						
Individual Protection	Measures				ective safety glasses or	goggles, gloves	, apron, vapor			
	Section 9	– Ph	vsical a	and Chen	nical and Chemica	I Properties				
Appearance (physical			,		ear, Fluorescent Green

US Toxic Substance Cor	ntrol Act	Components of this product listed in the February 2019 TSCA Inventory update are designated as ACTIVE or are exempt from Inventory requirements under 40 CFR 720.30					

CA Proposition 65	WARNING: This product can expose you to chemicals including Ethylene glycol, which is/are known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov
CEPA – Domestic Substances List (DSL)	All substances contained in this product are listed on the Canadian Domestic Substances List (DSL) or are not required to be listed.

Section 16 – Other Information

This SDS is applicable for all dilutions and containers for this brand of product. The information herein is provided in good faith and believed to be accurate as of the effective revision date shown. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/ user's responsibility to ensure that activities comply with all federal, state, provincial or local law.

Product Dilutions Differentials							
Properties ¹	60%	50%	40%	35%	30%	25%	
Pah nol® Universal (Pah nol® U-900) Antifreeze		48%					
Performance Additives and Water		52%					
Specific Gravity (15/15°C 60/60°F)		1.060 - 1.090					
Reserve Alkalinity (minimum)		3					
Freeze Point (maximum)		-34°F / -37°C					

¹Data for the concentrate is based on volume of Ethylene Glycol; data for mixtures is based on volume of Pah|nol® Universal (Pah|nol® U-900) Antifreeze.
