## **Houghton Chemical Corporation**

## SAFE-T-THERM® Classic Biobased

Section 1 - Identification								
			ughton Chemical Corporation					
			Cambridge Street, Allston, MA 02	2134				
			7-254-1010 or 1-800-777-2466					
	mergency Telephone CHEMTREC: 1-800-424-9300							
Chemical Name 8	& Synonyms		freeze/Inhibited Propylene Glyco	)[				
Chemical Family Propylene Glycol Mixture								
Recommended U			t Transfer Fluid					
Restrictions on U	se	Dilu	tion to 50% is generally recomm	ended: dilute to meet	local c	ondition.		
Section 2 – Hazard(s) Identification								
Hazard Classification Not Applicable								
Signal Word	Signal Word Not Applicable							
			le this material is not considered					
Hazard Statemen	t		ndard (29 CFR 1910.1200), this		e inforr	nation critical to the		
			safe handling and proper use of this product.					
Pictogram Descri	ption		Applicable					
			p container tightly closed. Keep					
Precautionary Sta	atement		smoking, drinking or eating around product. Wear protective gloves, eye and face					
, , , , , , , , , , , , , , , , , , , ,		equipment. Store in a cool, dry and well-ventilated location. Avoid release to the						
A mare of the multiple and	not othornica	envi	environment.					
Any other Hazard classified	not otherwise	Not	t Applicable					
Classified	Section	3 –	Composition and Informa	ation on Ingredie	nts			
Chemical Name	0001101		Common name and synonyms	CAS#		% by weight		
Propylene Glycol			1,2 - Propanediol	57-55-6		96%		
Water			N/A	7732-18-5		2%		
Inhibitors & Dye			N/A	Proprietary		2%		
minibitors & Dye			14/74	Тюрпекату		270		
			Section 4 – First aid Me					
			Symptoms of Exposur					
Acute	Irritation of affe	cted a						
Delayed	Irritation	0.00.0						
Inhalation		sts ex	pected to be slightly irritating to	upper respiratory trac	t.			
Skin	Irritation may re		recipies to the engine, minuming to	<u>жеро: тооршатоту шао</u>				
Eye Contact			transitory stinging and tearing.					
-			gested. Ingestion of larger amou	ınts mav cause gastr	ointesti	nal upset and		
Ingestion			entral nervous system depression					
	<u>'</u>		First Aid Instructions					
Inhalation	Remove to fres	h air.	If symptoms persist, seek medic	al attention.				
			and water. Remove any contam		medic	al attention if		
Skin	irritations deve			· ·				
Eye Contact			at least 20 minutes. Seek medica	al attention if irritation	s devel	ops or persists.		
Ingestion	DO NOT induce vomiting, seek medical attention.							
Other								
		S	Section 5 – Fire Fighting N	<i>l</i> leasures				
Suitable Extinguishing Material  Water, water fog, water spray, alcohol foam, dry chemical or carbon dioxide					nical or carbon			
Unsuitable Extinguishing Material			No Data Available					
Hazards from Combustion			Smoke may contain the original material in addition to but not limited to: Carbon Monoxide, Carbon Dioxide.					
Special Protective	Equipment for		Wear self-contained breathing apparatus and protective suit. Evacuate					
Firefighters			personnel to safe areas and keep upwind of fire.					
- 3	Page 1 of 4							

	Section 6 –	Accidental Release Measures				
		Ventilate area of leak or spill. Remove all sources of ignition. Wear				
Use of personal precautions		appropriate personal protective equipment.				
		Usage of safety glasses or googles is recommended. Chemical				
		resistant gloves, chemical resistant apron, boots, and full suit will be				
Protective equipment to prevent th	е	necessary depending on the extent of clean up task. If ventilation of				
contamination of skin, eyes, and cl	othing.	not control airborne concentration then respiratory protection				
		equipment that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2				
		requirements should be used.				
Methods and materials used for co	ntainment	Collect liquid in an appropriate container or absorb with inert material				
		and place in chemical waste container.  Do not flush to sewer. Comply with all federal, state, and local				
Cleanup procedures		regulations.				
	Section	7 – Handling and Storage				
	00011011	Protect container from physical damage. Wear appropriate personal				
		protection equipment. Do not expose containers to open flame,				
		excessive heat, or direct sunlight. Use local exhaust over processing				
Precautions for safe handling		area. Do not eat, drink or smoke around products.				
1 Todadiono for oaro manamig		Store in a cool, dry and ventilated area away from sources of heat,				
		moisture and incompatible materials. Observe all warnings and				
Recommendations on the condition	ns for safe	precautions listed for the product. Keep container closed to prevent				
storage, Storage/handling incompa		contamination.				
Secti	on 8 – Expo	osure Controls/Personal Protection				
OSHA Permissible Exposure Limit	s (PELs)	Not Applicable				
American Conference of Governm						
Industrial Hygienists (ACGIH) Three	shold Limit	Not Applicable				
Values		· ·				
Other Exposure Limits		AIHA WEEL is 10 mg/m3 for total vapor and aerosol.				
Engineering Control		Use mechanical (general) ventilation to control airborne levels below				
		exposure guidelines.				
Individual Protection Measures		Wear protective safety glasses or goggles, gloves, apron, vapor respirator.				
Section 9	- Physical	and Chemical and Chemical Properties				
Appearance (physical state, color,		Liquid, Clear, Green				
Upper/lower flammability or explos		Not Explosive; LOWER: 2.6% (v) UPPER: 12.5% (v)				
Odor		Slight to no odor				
Vapor pressure		133 Pa / 0.1 mmHg				
Odor threshold		Not Applicable				
Vapor density (air = 1)		2.1				
pH		9.0 - 10.5				
Relative density		1.055 - 1.065				
Freezing point (as 50%)		-22°F / -31°C				
Solubility(ies)		Miscible in water				
Initial boiling point and boiling rang		311°F / 155°C				
Flash point	<u> </u>	225°F / 107°C				
Evaporation rate (Butyl Acetate = 1	1					
	)	<1				
Flammability (solid, gas)	ar .	Not Flammable				
Partition coefficient: n-octanol/wate	;i	No Data Available				
Auto-ignition temperature		> 700°F / > 370°C				
Decomposition temperature; and		Not Applicable				
Viscosity ~75 cps at 60°F  Section 10 – Stability and Reactivity						
Reactivity Product is stable under typical use temperatures.						
Chemical Stability		, i				
Hazardous Reactions	Product is stable under typical use temperatures.  Avoid contact with oxidizing materials and strong acids.					
Conditions to Avoid						
Incompatible Materials		r, ignition sources and incompatibles.  St with oxidizing agents and strong acids.				
Decomposition Products		de and carbon monoxide may form when heated to decomposition.				
Decomposition Products	Carbon dioxid	te and carbon monoxide may form when heated to decomposition.				

		Alde	hydes, alcohols or ot	her organic a	cids m	nay a	also be formed.		
			ction 11 - Toxico						
Likely Routes of Ex	posure			s / Skin / Inge					
	Effects from Long Term Exposure								
Delayed Effects	Irritation o	f affected	area	Irritation of affected area					
Immediate Effects	Irritation o	f affected	area	Irritation of affected area					
Chronic Effects Not Applicable Lactic acidosis, stupor and seizures have been following chronic ingestion.					reported				
The numerical measure				n absorption in rabbits is	s >10,000				
estimates such as the estimated amount [of test animals in a sin	mg/kg Ingestion: The oral LD 50 for rats is 20,000 mg/kg								
Description of the s	This descr	iption includes the	Irritation of a	Irritation of affected areas. Lactic acidosis, stupor and					
symptoms associate including symptoms exposure.	seizures.

## **Section 16 – Other Information**

This SDS is applicable for all dilutions and containers for this brand of product. The information herein is provided in good faith and believed to be accurate as of the effective revision date shown. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/ user's responsibility to ensure that activities comply with all federal, state, provincial or local law.
