Houghton Chemical Corporation

Safety Data Sheet

SAFE-T-THERM® Classic

Section 1 - Identification								
			hton Chemical Corporation					
52 (ambridge Street, Allston, MA					
			7-254-1010 or 1-800-777-2466	3				
Emergency Telep			MTREC: 1-800-424-9300	4-9300				
Chemical Name 8	& Synonyms		reeze/Inhibited Propylene Glyc	ol				
Chemical Family			ylene Glycol Mixture					
Recommended U			Transfer Fluid					
Restrictions on Us	se		on to 50% is generally recomr		t local condition.			
			ection 2 – Hazard(s) Ide	ntification				
			Applicable					
			Applicable					
Hazard Statement Standa			e this material is not considered hazardous by the OSHA Hazard Communication dard (29 CFR 1910.1200), this SDS contains valuable information critical to the handling and proper use of this product.					
Pictogram Descri	ption		Applicable	1				
Precautionary Statement smoki equipi			ep container tightly closed. Keep away from heat, sparks or open flames. No oking, drinking or eating around product. Wear protective gloves, eye and face uipment. Store in a cool, dry and well-ventilated location. Avoid release to the vironment.					
Any other Hazard classified	not otherwise	Not A	Applicable					
Section 3 – Composition and Information on Ingredients								
Chemical Name C			Common name and synonyms	CAS#	% by weight			
Propylene Glycol		1	1,2 - Propanediol	57-55-6	96%			
			N/A	7732-18-5	2%			
Inhibitors & Dye N			/A Proprietary		2%			
Section 4 – First aid Measures								
	Symptoms of Exposure							
Acute	Irritation of affe	cted a						
Delayed	Irritation							
Inhalation	Vapors and mi	sts exp	ected to be slightly irritating to	upper respiratory trad	ct.			
Skin	Irritation may result							
Eye Contact	Irritation may cause transitory stinging and tearing.							
Ingostion	Very low toxicity if ingested. Ingestion of larger amounts may cause gastrointestinal upset and							
Ingestion	possible tempo	rary ce	entral nervous system depress	ion.	-			
			First Aid Instruction					
Inhalation			f symptoms persist, seek med					
Skin	Wash skin with soap and water. Remove any contaminated clothing. Seek medical attention if irritations develops or persists.							
Eye Contact	Flush with water for at least 20 minutes. Seek medical attention if irritations develops or persists.							
Ingestion	DO NOT induce vomiting, seek medical attention.							
Other								
Section 5 – Fire Fighting Measures								
Suitable Extinguishing Material			Water, water fog, water spray, alcohol foam, dry chemical or carbon dioxide					
Unsuitable Exting	uishing Material		No Data Available					
Hazards from Col			Smoke may contain the original material in addition to but not limited to: Carbon Monoxide, Carbon Dioxide.					
Special Protective Equipment for Firefighters			Wear self-contained breathing apparatus and protective suit. Evacuate personnel to safe areas and keep upwind of fire.					

Protective equipment to prevent the contamination of skin, eyes, and clothing. Methods and materials used for containment Cleanup procedures Section Precautions for safe handling Recommendations on the conditions for safe storage, Storage/handling incompatibilities. Section 8 – Expo OSHA Permissible Exposure Limits (PELs) American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Values Other Exposure Limits Engineering Control Individual Protection Measures	Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment. Usage of safety glasses or googles is recommended. Chemical resistant gloves, chemical resistant apron, boots, and full suit will be necessary depending on the extent of clean up task. If ventilation does not control airborne concentration then respiratory protection equipment that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements should be used. Collect liquid in an appropriate container or absorb with inert material and place in chemical waste container. Do not flush to sewer. Comply with all federal, state, and local regulations. 7 — Handling and Storage Protect container from physical damage. Wear appropriate personal protection equipment. Do not expose containers to open flame, excessive heat, or direct sunlight. Use local exhaust over processing area. Do not eat, drink or smoke around products. Store in a cool, dry and well ventilated area away from sources of heat, moisture and incompatible materials. Observe all warnings and precautions listed for the product. Keep container closed to prevent contamination. sure Controls/Personal Protection Not Applicable Alha WEEL is 10 mg/m3 for total vapor and aerosol. Use mechanical (general) ventilation to control airborne levels below exposure guidelines. Wear protective safety glasses or goggles, gloves, apron, vapor

Appearance (physical state, color, etc.) Upper/lower flammability or explosive limits	respirator.				
Upper/lower flammability or explosive limits	and Chemical and Chemical Properties				
	Liquid, Clear, Orange				
Odor	Not Explosive; LOWER: 2.6% (v) UPPER: 12.5% (v)				
	Slight to no odor				
Vapor pressure	133 Pa / 0.1 mmHg				
Odor threshold	Not Applicable				
Vapor density (air = 1)	2.1				
рН	9.0 - 10.5				
Relative density	1.055 - 1.065				
Freezing point (as 50%)	-22°F / -31°C				
Solubility(ies)	Miscible in water				
Initial boiling point and boiling range	311°F / 155°C				
Flash point	225°F / 107°C				
Evaporation rate (Butyl Acetate = 1)	<1				
Flammability (solid, gas)	Not Flammable				
Partition coefficient: n-octanol/water	No Data Available				
Auto-ignition temperature	> 700°F / > 370°C				
Decomposition temperature; and	Not Applicable				
Viscosity	~75 cps at 60°F				
Section 10 – Stability and Reactivity					
	ble under typical use temperatures.				
	ble under typical use temperatures.				
	with oxidizing materials and strong acids.				
	s, ignition sources and incompatibles.				
, , ,	· •				
Decomposition Products Carbon dioxide	with oxidizing agents and strong acids.				

Aldehydes, alcohols or other organic acids may also be formed.								
Section 11 – Toxicological Information								
Likely Routes of Exposure Eyes / Skin / Ingestion / Inhalation								
	Effects from Long Term Exposure							
Delayed Effects	Irritation c	f affected	Irritation of affected area					
Immediate Effects	Irritation c	f affected	Irritation of a	Irritation of affected area				
Chronic Effects		Lactic acidosis, stupor and seizures have been reported following chronic ingestion.						
The numerical meas				n absorption in rabbits is	>10,000			
estimates such as the estimated amount [of test animals in a sin	mg/kg Ingestion: The oral LD 50 for rats is 20,000 mg/kg
