

Kickstart Your Career with Houghton Chemical Summer Internship Programs

Program overview

The Houghton Chemical Internship Program is a paid, flexible opportunity designed for college students. The program exposes students to a wide range of career opportunities while providing valuable professional and educational experiences. Interns develop their skills through networking, job shadowing, hands-on projects, and meaningful workplace experiences that prepare them for future careers.

What you'll gain

- Hands- on business experience
- Exposure to multiple departments
- Professional skills development
- Mentorship from industry experts
- Meaningful contributions to real company projects

Eligibility Criteria

-  Undergraduate student

Intern Testimonials

“My summer internship at Houghton Chemical was a highly positive and valuable experience. I contributed to quality-control lab organization and supported general company and worksite safety while gaining exposure to research and laboratory practices. The team created a welcoming and supportive environment, and everyone was willing to answer questions, share their knowledge, and help me learn about the heat-transfer chemical industry throughout the internship”

— **Vikram Puar**

“My internship at Houghton Chemical was a great experience thanks to a welcoming, supportive team that was always willing to answer my questions and serve as mentors. Through this experience, I developed strong sales, communication, and overall professional skills within a workplace environment.”

— **Logan Le**

“My first corporate internship was at Houghton, and I'm so grateful and appreciative for being introduced to the chemical industry by all members of the team. From learning about sales outreach and communicating with potential clients, to quality testing customer samples and learning the chemistry behind each product, I learned so much that I am now able to continue to apply in the industry. Thank you, Houghton Chemical!”

— **Madison Molly**
